

# BRING IN YOUR WIFE

Any man that is fortunate enough to have a wife will do well to bring her along when ready to select his FALL AND WINTER SUIT.

## We Extend to Her a Personal Invitation

A woman's eyes see and appreciate the quality of fabrics, the accented point, we call style; the excellent tailoring, the artistic touch and the care we give details, and the cut. Men know whether they like the general style and feel of the fabric when they put on a suit, and after they have worn it, the tailoring and looks of the suit. But a woman will know at a glance just what you are getting, how it becomes you and how well it is worth the price—no matter what grade of suit you buy

## LAST OF THE SERIES MAY TRY AT TUCSON

Athletics and Maroons Will Try to Settle the Argument at Eastlake Park This Afternoon.

Both the Athletics and the Maroons are loaded up for today's combat. It is the deciding game of the series of five and upon it depends who are entitled to be called the champs. Who will win? That is a query that would silence the megaphone mouthpiece of the Delphic oracle. Considerable money has been bet on the result and a large crowd is sure to be on hand to root and to rag. This following of the national sport will be augmented today by a number who have come into the city to attend the circus tomorrow. It is hoped that there will be nothing clownish in today's game. Hull will serve the benders for the Athletics, and as he has done good work, pitched a two-hit game, he is entitled to start the ball rolling, and if he can hold out as heretofore there will be no need of another box artist.

However, to provide for an emergency, Rinderle will have Barnett on hands and in case Hull's wing gets groggy or he is found for too many swats the former invincible of the City of Pines will be passed to the slab. But Hull has been doing so well he is entitled to all the best of the deal. Let him have the support and the Maroons will be larruped.

The Maroons have secured a Cananea back-stop to hold Delgado's speedy ones, and an additional pitcher is said to have arrived yesterday to supplant Del if he goes up in the air. Millett of Mesa, will play in center for the Athletics and the line-up will remain about as in the former games. Comparing the two teams as far as records prove anything, the Athletics have the best of the argument. In the field they have made fewer errors in the four games than the Maroons. The aggregate of the runs they have accumulated is 18, against a total of 14 by the Maroons. The Athletics have batted better, gathering 27 safe bingles to the Maroons' 21. This may not prove anything, but is generally regarded as giving some line on the comparative strength of the teams. Barring coldness or aerial flights, with Hull in good form,

the Athletics should win. But the Maroons are rabid to cage this contest, and are going to try hard for the long end of the score.

It is said that Barnett wishes to pitch a game here and would like to remain permanently. However, the grand stand will be satisfied with Hull as long as he holds down the score. Magoffin will be his right hand man, and Harter will play on first, where he did well in the last game. Pete Sullivan is charted to hold the fate of the judgments in his fingers. The grand stand knows Pete and they are not apt to be bashful about letting him know it. But Pete knows the game, and ought to make good.

It is said that if the Athletics take this game by a safe margin and show any ability, unless the Browns appear on the horizon by the time of the Tucson tournament, a few friends of the Athletics' manager will back the team for the series at the old Pacho. It is planned to — Ayer to coach the Athletics and Barnett to join the pitching staff. What the outcome will be is problematical.

## MARVELOUS INVENTION CURES WEAK MEN

Patent Granted by the United States Government.

A new and scientific appliance invented by L. B. Hawley, M.D., will produce full manly power at first application. The effects are immediate and startling to a high degree. Develops strength and cures lost vigor. Positively no failures. Physicians endorse and use it in their practice. If you are the least skeptical as to the value of this remarkable treatment, send for illustrated circulars, take them to your family physician and get his opinion. This is the first time any one has requested you to take his circulars to your family physician. Why? Simply because he knows your physician will not recommend his treatment. Not so with this appliance. Your doctor will immediately grasp the idea, and when he does, he will recommend it. Nothing like it has ever been sold before. It works the same on every individual. Send today for free descriptive circular of this wonderful instrument. The moment you see it you will realize its possibilities. No C. O. D. or free trial schemes to catch the unwary. This is a plain business proposition that will appeal to you as the greatest opportunity ever offered to those who are weak. Address L. B. Hawley, M.D., 513 B. Winsor Building, Rochester, N. Y.
